TOWN COUNCIL

A deep hole in the laneway next to the King Edward Hotel has been repaired since the last council meeting. It was reported on Tuesday night at the Council Meeting. Also, the entrance to the laneway on Waddy Street has been worked over in order to permit easier access, and has commenced on repairing the sidewalk in front of the Western Department Store, where the walk had so badly bulged.

With regard to the improvements suggested at the last council meeting by the Berry-Vale W.L. at the last meeting, it was decided that it would be advisable to circularize holders of plots in the cemetery. A letter will be prepared and sent out very shortly.

Town Buys Tractor

Decision was made at the meeting that the Town would be well advised to buy a tractor and equipment which would do a great deal of the work around town and much more quickly than is now possible. An order has therefore been placed for a tractor, with lights, levelling crank, grader, side mower, wagon hoist, scraper, and angle dower, all of which is capable of being used with the tractor directly.

The cost of this material is not quite \$2000.00. A certain amount of this expenditure, though small, will be recovered from sale of the Town's present grader and mower, and it is felt that over a period of a few years the equipment will more than pay for itself. The normal cost of the town used at present is considerably over three hundred dollars a year, and it was pointed out, it is available for only about seven months of the year. In addition to this factor, it was felt that the tractor would be much speedier, and thus save the Town considerably in the time element. A commitment (Continued on Page Five)

The Strathmore District School Fair

This year the Fair will be held Friday and Saturday, 11th and 12th of October.

Programme for the two days is:—

FRIDAY—

All entries in School Work, Sewing and Cooking and Flowers must be in the Memorial Hall by 10:00 a.m.

Vegetable and grain exhibits will be received until 10:00 a.m. Saturday morning.

Start of Softball tournament.

A non-competitive concert, furnished by the students of a number of schools in the evening.

SATURDAY—

Live-stock to be in skating rink by 10:00 a.m.

Judging of Live Stock, and vegetables and grains and grasses.

Sports and conclusion of Softball tournament.

Dance at night.

The rules of the Softball tournament are:

For Strathmore, Carseland, Namaka and Nightingale, all players must have been under 15 by July 30th.

For one room schools there is no limit as to age.

All teams must have at least three girl players.

Entries should be given to Mr. Crellin or to Mr. MacKenzie by Wednesday, October 9th.

In the Home Economics all classes will be sub-divided as follows:—

Grades VII & VIII.

Grade IX.

High School.

TRAGIC DEATH OF KENNETH MacKENZIE

Freak Accident To Standard School Bus

A very serious accident occurred near Standard Wednesday morning, when the Craikander Bus driven by Arthur Grant, with 24 children in the Bus overturned two miles south of Standard.

The accident was caused by a broken spring which locked the steering gear, hence, placing the car out of control of the driver.

The Bus overturned twice and landed 80 feet from where it left the road.

The driver and six children were removed to a Calgary Hospital in St. Anne's Ambulance—two of the children being seriously hurt. The remaining children are suffering from scratches and shock.

Chp. S. L. Mott is investigating.

A great deal of credit is given to Gordon Grant, nephew of the driver, who, when smoke curled from under the dashboard, crawled forward over the occupants of the car, and managed to release his uncle from under the steering wheel. Mr. Grant the driver, then broke the ignition wires, and averted the possibility of the car breaking into flames.

AGRIC. SERVICE BOARD NOTES

The above board met in the Municipal Office on Tuesday afternoon, September 10th. Many and varied subjects were discussed to the mutual benefit of each member.

One of the first items was a report to be compiled of the boards activities for the summer. All concurred in the fact that more co-operation has been shown by the farmers of this Municipal District this year than in the past with respect to weed control.

The board viewed the results obtained by several farmers by their work to control wild oats. It seems that the practice of cultivating the land infested, several times to kill the Wild Oats that have germinated and to bring other seeds to the surface to be germinated, before seeding to Oils Barley in the middle of June, can be recommended. This practice will also control Wild Mustard and other annuals or biennials. It must be remembered that this control practice will only clean the surface and if plowed or tilled deeply at some future date—weed (Continued on Page Five)

An extremely sad accident occurred Monday evening which resulted in the death of little Kenny MacKenzie, younger son of Mr. and Mrs. Ian MacKenzie of Strathmore.

To the grief stricken parents, brother and grandmothers and other relatives, the very sincere and heartfelt sympathy of the entire community is extended.

Kenny was playing with some school mates, when he became injured by a truck, the injuries resulting in his death in less than half an hour.

Dr. Giffen was summoned, and rendered all possible aid—but unfortunately without avail.

Kenny was a happy little lad of twelve years, and a general favorite with his fellow students. For them and the homes he visited from time to time, will fall a shadow of sincere regret.

Funeral services were held from St. Michael and All Angel's Church, Strathmore at 2 p.m., Thursday, September 19th, the Rev. D. A. Ford officiating. A guard of honor of Students of the School formed outside the church.

Pall bearers were Olfen Bower, Dick Goldwell, Lawrence Mackie, Gordon Potter, Maniel Torgimson, Stanley Wright.

Large quantities of very beautiful flowers were sent by sympathetic friends.

Melchies and Holloway were in charge of Funeral arrangements and burial was made in Union Cemetery, Calgary.

Dept. of Agriculture Meet In Calgary

The Department of Agriculture called a meeting of the District Agriculturists and Field Supervisors of Agricultural Service Boards in Calgary for the Southern part of the Province. At this meeting many phases of weed control were discussed, together with many other phases of Service Board activities. After a general resume of the program for winter was outlined.

Strathmore and District Community Centre

After one year's life the Community Council has achieved the following:

1. Paid all costs for the Supervision of the Lion's Swimming Pool.

2. Secured a new Victor Projection Machine. This projector may be used by all organizations in the area, provided a competent operator is secured. It may be used by the Town School at any time.

There will be a full meeting of the Council on Monday, September 23rd. It is hoped that the official representatives of all organizations and any others interested will be present.

Sixth Ration Book

The Strathmore Ration Book Distribution Centre was a busy place last week. 1340 books were given out here and the thanks of the public are due Mr. Leonard Hill and his efficient staff of helpers, these included Mrs. T. S. Hughes, Mrs. K. Baldwin, W. Springthorpe, Mrs. A. Chase, Miss M. Vermaut, Mrs. Thos. E. Wright and Miss Frances Jones.

Totals from the writing centres are not all in yet but it would appear that the number of books issued were 29% in excess of the last issue. Here again are thanks for their kindly donated assistance. This list was printed in last week's paper.

Strathmore Wins Big 6 Title Second Year

Winning both games against Rockyford played on Sunday in the local baseball park, the Strathmore Baseball Club won the title in the playoffs of the Big Six League. They won it also last year, and will thus retain the shield awarded by the Calgary Brewery.

The first of the two games was won by Strathmore 16-11, and the second score was 16-11. Rockyford had previously won the first game, played at Rockyford by a score of 6-4.

Award will be made by the League of crests denoting the team as winners for the year 1946.

Strathmore's team has had a very successful year financially—in fact, according to one of the executive, its best year ever.

Plans are now under way to hold a smoker for the team, at which they will be presented with sweaters, and a dance. This will take place in the Hall on October 18.

COMING EVENTS

Regular Clinics for Infant and Pre-School Children are held by the Wheatland Health District from 2:00 to 4:00 p.m.

Strathmore, the second and fourth Tuesday in each month. Carseland the second Friday in each month. Standard, the third Thursday in each month. Rockyford the third Friday in each month.

Office hours are from 9-12 a.m. each Saturday. a22tr

The regular Baby and Pre-School Clinic will be held in the school dormitory in Cluny, September 20th, from 2:00 p.m. to 4:00 p.m. Miss M. Davis, Brooks District Nurse in charge.

Dance at Meadowbrook Hall, Friday September 27th. Anderson's Orchestra will supply good music. Everyone welcome. 151c

A meeting of the Alberta Farmers' Union will be held in the Memorial Hall on Thursday, September 24th at 8:00 p.m.

The brief presented to the Dominion Government by the Alberta Farmers' Union and the United Farmers of Canada, Saskatchewan Section, is published in this paper and would suggest every farmer should familiarize himself with the ten points submitted.

All Farmers are cordially invited to attend this meeting.

Yours truly

D. H. Campbell
Secretary.

There will be a full meeting of the Community Council on Monday, September 23rd at 8:00 p.m. in the Town Hall. All representatives are urged to be present. 1519c

Boy Scouts Stage Hike

The first meeting of the season for the Strathmore Troop of Boy Scouts was held on Monday evening, when the group of boys tramped a short distance out along the canal, and held a campfire, over which they roasted a various assortment of wieners, corn and hamburgers. A sing-song and an outline of the program planned for the year completed the evening.

KITCHEN PERILS

About one in ten of the falls causing in death or injury takes place in the kitchen.

THE 'OUT-SIDE'

GOOSE STUFFING

Our best chuckle recently came from Alabama; a novel newspaper, "Goose Stuffing", published by Tom Prichard, Alabama, Citizen. "Goose Stuffing", a paper of "Free Insides for a Paper Without Fats" published especially as a "Service for Weekly Newspapers", is a four-page sheet made up exclusively of free publicity mats mailed to the citizens during a single month. It omitted all mats which might be construed as a public service (such as Victory Loan, Red Cross, Boy Scouts, etc.) and further limited itself to only one "entry" from each sender if publicly. The paper was a feature of the Alabama Press convention recently.

WHEAT AGREEMENT WITH BELGIUM.

The Northwestern Miller asserts that negotiations are being conducted between Canada and Belgium for a long term contract involving 300,000 tons of wheat, or wheat flour equivalent, annually. It is speculated that the price set in such an agreement may run above the Canadian-British price levels.

Says the Northwestern Miller, "It is conceivable according to private trade opinions that this country (the U.S.A.) may find itself effectively barred from international cash wheat markets and compelled to enter into a visionary world subsidy food bank to find a market for our surplus grain."

"The trend towards bilateral wheat agreements, while admittedly against the future trade policies of the state department, will continue until specific proposals for a workable worldwide marketing organization are in the 'working' stage."

PLOUGHING BY RADAR

A controlled tractor operating exactly as if operated manually has been ploughing United Kingdom wheat fields recently. The tractor is the ordinary small type fitted with the Queen Bee apparatus used for controlling pilotless planes. It was used to plough a fourteen acre field in Southern England. In one corner of the field stood the transmitting van. The tractor was pushed into position and then began to move by itself. It ploughed ten furrows, each 65 feet long in ten minutes. Left and right turns were made perfectly. This successful experiment was the result of considerable radar research which has been carried out by the Royal Aeronautical Establishment at Farnborough, Kent. Ploughing by radar control if generally adopted, mean a tremendous saving in manpower since one skilled operator can guide six tractors simultaneously.

FARMERS ASKED TO FILE FORMS

The National Barley Contest Committee this week called attention of competitors to the need for getting in their application form for judging, if they are holding their competition barley for seed.

Are You Interested

Are you interested in selling a quantity of greenfeed? Or would you care to buy eighty acres of good land? Or maybe a man's bicycle? Any of these items and many more, you will find in the Want Ad section of the Standard each week.

FARMING NEWS

Produced by the Alberta
Department of Agriculture

**OVERCROWDING THE LAYING
QUARTERS**

Early hatched and early maturing pullets are now being placed in the laying quarters and numerous requests are arriving at the office of the Poultry Commissioner about various troubles developing with the pullets. The Poultry Commissioner, C. W. Traves, says that practically all these troubles are due to overcrowding and to faulty management and feeding.

Many farmers buy more chicks and raise more pullets than they have laying house accommodation for. Birds of the heavier breeds such as Barred Rocks and Hampshires require four square feet of floor space per bird while those of the lighter breeds such as Leghorns require three and one half square feet. In pens holding 200 birds or more this space may be reduced by one quarter or one half square foot per bird.

Overcrowding of pullets causes feather pulling and cannibalism, loss of body development, and consequent loss of vitality which tends to bring on colds and roup. This all adds up to unnecessary mortality and loss of egg production. Remember that the pullets have been used to lots of fresh air and space on the range. In the laying quarters their space is limited and all windows should be wide open to allow as much fresh air as possible. Give a liberal supply of green feed each day. They should have a hopper of developing mash before them until

they are laying at least 40%. Then gradually change to laying or breeders mash.

Good quality whole oats should be if you have many pullets for the available to the birds at all times. Laying accommodation remember that you will get more eggs and larger eggs, with less mortality, from a 150 pullets in proper quarters than from 200 overcrowded pullets in the same quarters. Usually there is a demand at good prices for your surplus pullets if they are well developed birds. A small advertisement in your local paper helps to sell the surplus.

Remember that overcrowding of the pullets in laying quarters is possibly the worst feature of the poultry business that we have to contend with each fall.

**WILL FERTILIZERS HURT
MY SOIL**

None of the fertilizers commonly used in this province can harm the soil. Fertilizers are scientific preparations of plant food that are designed to feed the crop and not just stimulate it. Continuous cropping depletes the soil of the elements required for plant food. The use of commercial fertilizers is the one very important method of replacing them.

Some people have the idea that if they once start to use fertilizers, crop production will suffer unless the fertilizer is applied every year. This idea is wrong. Fertilizers encourage increase in yield until they are cropped out of the soil - and from then on the crops will be no worse than if fertilizer had not been applied. Yields do not fall off because fertilizer practice has been stopped but because the plant foods have been used up and it

is time to add more. The idea then is to feed your soils like you feed your live stock - when they need it.

Further information on the use of fertilizers in Alberta can be found in the circular of that name - "Suggestions for the use of Fertilizers in Alberta." This circular, prepared by the Provincial Advisory Fertilizer Committee, can be had free of charge from the Alberta Department of Agriculture.

DIPLOMA COURSE IN DAIRYING

Dr. H. R. Thornton, head of the Department of Dairying, University of Alberta, has announced that applications for admission to the Diploma Course in Dairying have now been reviewed. Successful applicants are being notified immediately of the acceptance of their applications.

Further applications can still be accepted and any veterans wishing to attend this course should complete an application form and forward same to the Department of Dairying, University of Alberta, without delay. Twenty returned men can be accommodated for training in this six months course which covers buttermaking, cheese-making, ice cream making, milk plant practices, grading and testing of dairy products, as well as dairy bacteriology, dairy chemistry, etc.

Ex-service personnel without practical experience in creamery work start their preliminary training on September 30th, while those with experience register and commence studies on October 28th. The course will conclude on April 30th, 1947.

WEEDS AND THE FARMER

This is the time of year when weed infested fields really show up. Even the good farmer may find that weed infestation has occurred in spite of the attention given to his fields. This man will solve his problem by changing his farming methods.

There is the other case however, where the same weedy fields are noticeable year after year. A serious note in this connection is struck by the Field Crops Commissioner, A. M. Wilson. Farmers, he says, have an obligation and a responsibility in maintaining the productivity of the soil. Failing in this responsibility is sufficient reason to have these fields made available for proper cultivation by those citizens who are capable and anxious for the opportunity.

In many districts of the province excellent crops are being harvested. High yields of clean grain should be sufficient to demonstrate the need for good farming practice. Good soil, if properly handled, will return excellent yields. If it is abused or improperly cultivated, weeds will flourish.

There is no time like the present to rehabilitate weed infested land. Thorough fall cultivation, where soil drifting is not likely to occur, will do much towards bringing perennial weeds under control. Light surface cultivation just before freeze-up will induce early spring germination of annuals.

ODDS AND ENDS

Harvesting is making excellent progress in Manitoba and yields are coming up to expectations. A 60 million bushel wheat crop is anticipated, one of the best ever produced in that province.

A considerable quantity of the new "Rescue" wheat, resistant to sawflies, will be available to Alberta farmers next season. The Dominion government station at Lethbridge has a list of farmers who will have Rescue wheat for sale. While this wheat is resistant to sawflies because of its solid stem, it is not of the same quality as other popular varieties of wheat and usually grades three northern. The price of Rescue wheat is \$2 a bushel and it is being sold in lots limited to ten bushels.

NIGHTINGALE

—By Mrs. F. H.

Mrs. Wm. Joel entertained the Women's Institute at the hall last Friday. This meeting had been postponed one week on account of rain. Hand made ornaments were shown for roll call and some pretty ornaments were shown and passed around. One gift for the cheer fund was raffled and Mrs. Art Kimmett was the lucky winner. Mrs. Frank Smith won the birthday gift, also Mrs. Pete McLean won on a second birthday raffle. It was decided that while materials were scarce and hard to get, we would still go ahead and do what we can for the bazaar this fall. A delicious lunch was served at the close of a pleasant social hour by the hostess and her three daughters.

Miss Mary Trollope who has been quite ill at the Belcher hospital is much improved and will soon be released from the hospital.

leased from the hospital.

Mr. and Mrs. Art Farr Jr. have left Nightingale to make their home at Cochrane where they have set up in business.

Our congratulations go to Knute Larson who received an honor diploma for his grade 9 work last year.

Miss Lois Kinney who has spent the last few weeks with friends at Dalemead returned last Sunday.

Word has been received here of the birth of a daughter to Mr. and Mrs. George Thurston Jr. who now live at Trinidad.

Mr. and Mrs. Wildon Harriman are moving to Calgary this week end. Weldon will carry on with University work there. He has been teaching in the Standard High School the past three weeks.

Miss Kathleen Harriman is teaching for a few weeks at Akenstad.

HIRTLE'S

Soapless Suds

The scarcity of soap in stores these days has brought many soapless cleaning products to our attention. Here are some facts from the Home Economics Service about these preparations and suggestions as to their use in the home:—

Like soap these new products increase the wetting power of water so that it reaches the innermost parts of the material. Many of them cause water to wet material even more effectively than soap. In hard water they have an advantage over soap. Because they do not combine with minerals that cause hardness in water, as soap does, they clean as well in hard as in soft water. Because their solutions are not alkaline, they can be used with some fabrics and dyes that will be injured by soap. In hard water they do not give the cleanliness characteristic of soap. While they may appear expensive a little goes a long way.

These products should not be thought of as soap. They do not remove some kind of soil that soap removes. On the other hand they remove creams and oils so completely

that it is advisable to use creams and lotions on your hands as they tend to dry the skin.

These products are excellent for washing greasy dishes, removing grease from frying pans, oven and broiler, cleaning bathroom fixtures and sinks of hard water deposits, and cleaning clothing that has become greasy and stiffened by washing with hard water.

Some of these products must be used sparingly if at all on linoleum, paint, furniture, and other material in which oil is an important constituent. However, some of the newer preparations are made especially for cleaning paint and linoleum. It is important to read the labels on the packages which tell where and how these products may be used.

Alberta Farmer's Union

R. J. Boutillier, Secretary

In the past few weeks much has been said for, and against, the action taken by the membership of the Alberta Farmer's Union, in declaring a non-delivery strike of farm produce. Apparently, from material appearing in local papers throughout the Province, it would appear there has been some misunderstanding regarding the facts leading up to strike action being taken, and the demands made to the Federal Cabinet in a brief presented at Ottawa August 29th, 1946.

The brief, as presented, if carefully analyzed, is self-explanatory. The principle clause in the brief asks for the establishment of a fact-finding board to determine Fair Prices, personnel of such board to be appointed equally by Farmers' direct membership organizations, Labor, Business and Government. The establishment of such a fact-finding board has been approved by so many groups, not connected with Agriculture, that their voluntary and unsolicited support has resulted in the opponents of strike action misconstruing this support and publishing statements to the effect that the policies of the A. F. U. are being directed by various political parties and Labour Unions. The Board of Directors of the A. F. U. take this opportunity to deny such statements. All policies of the Alberta Farmers' Union are formulated by the members of the Union themselves and the Board is elected by the members to carry out their mandates.

The efforts of the Alberta Farmers' Union are directed toward the establishment of price levels for Agricultural products in relation to prices of all other commodities and to prevent restricted production, resulting from a spiral of increasing prices. Our main objective is security for Agriculture.

Agriculture, being the basic industry, is the foundation of prosperity for all other groups in Western Canada. If Agriculture suffers, so does Labor and Business. We therefore appeal to the general public and small business man to lend their sympathy and support to the farmers in their efforts. Security for Agriculture will have an immediate bearing on constant production, and will prevent another depression such as was experienced in the hungry 'thirties'. To help the farmer, is to help Canada as a whole.

A complete study of the position of Agriculture and the demands made by the Alberta Farmers' Union in brief presented to Ottawa, will greatly clarify the situation and prove the justification of the action taken.

NAMAKA NOTES

by M. W. —

Mr. and Mrs. Don Moss and son Wayne and Mr. Roy Moss all of Calgary spent the week end with Mr. and Mrs. Sam Moss and family.

Our local teachers, Miss Fossum and Miss Kramer visited with friends in Calgary over the week end.

Mr. and Mrs. Jim Kermack are staying with his folks Mr. and Mrs. D. Kermack of Strathmore for two weeks.

Saturday was the opening of the duck and goose season and it proved to be a busy day. All the enthusiastic hunters were up before daybreak, but were fully repaid for their efforts.

An Urgent Need

Alberta's Minister of Education the Hon. R. E. Ansley has offered a very tempting bait to young folk entering the University if they will enroll in the course leading to Teaching in our Public and Intermediate Schools.

Registration and Student's Union fees will be refunded if the student will enroll in this group, and undertake to teach in Alberta for three years.

This is the first time this step has been considered necessary in the Province—the unfortunate condition behind, which reveals the appalling lack of qualified teachers.

The extremely regrettable condition

is the effect so many closed schools will have on the growing children. They are the chief sufferers, which loss in their mature years will react sadly against them.

It has been said—if the salary is made large enough the scarcity will soon be filled.

This may be only one part of the cause.

We do not plead for any Good Samaritan attitude on the part of our educators—but for the sake of the growing children we trust Minister Ansley's appeal will be one hundred per cent fruitful.

After A Year of Victory

V-J Day. None of us who lived through it will ever forget it. We knew it when it came—the relief was so great.

But how do you feel now, after a year of victory? Secure—happy about the future?

A realistic picture of the world we're living in shows us a rising crescendo of strikes and crime waves at home. Abroad—boiling political unrest, violence, civil war and discord between the great powers. Behind it all is the ruthless march of tyrannous forces with a strategy for conquering the world and every part of it, including your nation, your city, your street. This throws upon the screen the ever-present shadow of a third world war.

A statement said recently: "Unless we win the war of ideas we shall fight

another war of arms." He was right. Our one hope is to accept this fact and act accordingly. Two things are needed: to know how to live and fight for our own great ideas; and how to recognize, understand and fight against the idea of the enemy.

"Men," said William Penn, "must be governed by God or they will be ruled by tyrants." This is the heart of the war of ideas. Men guided at heart by their own wishes always fall into the confusion and chaos that invites dictatorship. But men who let God speak to them in their hearts find the self-discipline—the "freedom under God"—which was democracy's original idea.

It's a war every man must fight out in himself. And Round 1 goes to the enemy unless we decide to start that fight today.

The A. F. U. Strike

THE STANDARD has on various occasions stated its objections to Strikes in the main.

There may be occasions in which such decided action is necessary to bring fairer conditions but in too many cases the Strikers pay dearly and arbitration has to be resorted to in the end to effect a reasonable settlement.

Hence with the present Farmers' Strike we fully endorse their aim to establish a Fact-finding board — This is all to the good, and should result in a fairer levelling of prices for the farmer both in buying and selling.

No one needs to be told that without

the produce of the farms — all life would suffer and starvation become general.

However when it comes to violence the dumping of cream or other food products we very heartily disapprove. And of this we are informed many of the A.F.U. members also disapprove.

The great number of farmers in the Dominion can with rational procedure gather such a force of public opinion that the Federal Government dare not ignore.

How much cash have you in the at-

"To every man there openeth
A highway and a low;
And every man himself must choose
The way his soul must go".

The Salvation Army Appeal

This worthy body is appealing for \$2,000,000 to take care of deficit on public welfare and increase some social service facilities.

No one will dispute the worthy work of this organization.

Air Marshall Bishop who is chairman of the S. A. Advisory Board stated in an address in the campaign opening.

"If the vast amount of suffering, misery and waywardness daily dealt with by The Salvation Army were dumped on the doorsteps of individual Canadians, they would realize with a horrified shock how important to Canada is the work of the Army."

CHANCELLOR

By Mrs. J. M. W.

Mr. and Mrs. Kapanluk are rejoicing over the birth of an 8lb. baby son born on September 9th in the General Hospital, Calgary.

Mr. and Mrs. H. Chamney visited friends in Brooks on Tuesday.

Mr. E. H. Young returned home from the hospital on Friday, his progress is very favourable.

Mr. and Mrs. Ed Gilbert and daughter Sharon from Yukon Territories are visiting Mr. and Mrs. G. C. Phillips. Other "ham" radio friends who visited over the week end were Mr. Bill Stenden of Calgary and two sons, one of them from the Yukon.

Mr. and Mrs. J. M. Wheatley entertained 26 guests at dinner on Tuesday eve in honor of Mrs. E. Butt of Oakland, California.

Mr. and Mrs. H. F. Fenske entertained at dinner on Saturday Eve in honor of Mrs. Butt.

We are very deeply grieved at the passing away of Mr. A. Reiffenstein of Standard. We extend our deepest sympathy to Mrs. Reiffenstein and family.

Mr. and Mrs. Muir of Tacoma, Washington are visiting Mr. and Mrs. Ed Young.

HUSSAR

By Mrs. M. C. B.

The Ladies Aid met at the home of Mrs. Andy Brown on Thursday afternoon with about twenty members and visitors present. As harvesting was in progress, there were only three in from the country: Mesdames F. Brink, J. Brinton and O. Blake. Mrs. T. Brundt gave up the secretaryship, on account of ill health, and Mrs. C. English was elected in her place, and Mrs. H. Hadley was appointed on the pantry committee. It was decided to make up a collection of jams, jellies, fruit and vegetables for the October meeting, to be sent to the Red Cross Hospital for crippled children. It was also decided to start the "Big Sister" movement in October, and to have a snap shot taken of the Aid at the next meeting at the home of Mrs. J. Brinton, on October 9th, at 2:30 p.m. A good program was put on, commemorating "Labour Day" readings by Mesdames C. English, A. Brown, F. E. Blake and E. J. Bell. The contest was won by Mrs. W. Wyrozub. A delicious lunch was served and social hour enjoyed.

LANGDON

By G. E. W.

At a fairly well attended meeting of the Home and School last Monday evening motion was passed to give a scholarship (the amount to be announced later) to the best around student in the senior room. This is a new venture and it is hoped that the children will work hard during the term for the prize. Both teachers, Miss A. Hall and Mr. S. Vanderburg were at the meeting and were able to meet with some of the parents. The quiz contest was played, and won by Mr. Harry Pennigar. A social half hour was spent at lunch after which the members departed for home. The next meeting will be held on September 23rd in the school.

Ross McNeill was in Langdon visiting with friends one day last week.

The regular meeting of the W. I. was held in the Hall last Wednesday afternoon when 23 members were present. The raffle tickets for the Baby's Layette will be ready for sale at the next meeting. The handicraft list was given to each member by Mrs. Moe. It is hoped after the busy harvest the members will start as soon as possible

on work for the coming year's conference. Quilt patterns are to be bought at the next meeting too, so that we may decide on setting up a quilt. Roll call was Animal Stories which caused a good deal of laughter. A clipping from the paper on Nellie McClung was read by Mrs. Frank Thomas and much enjoyed. A delicious lunch was served by the hostesses, Mrs. Scott, Mrs. Speechley and Mrs. Schmale. The next meeting will be held in the hall on October 2nd at 2:30.

Mrs. Geo Whitney spent last Friday in Calgary.

Mrs. J. J. Coldwell is home after her visit in Saskatoon with her parents.

Roy Whitney has just received word that he has been enrolled at the U. of A. Mr. Vanderburg spent the week end in Calgary.

A new teacherage was moved into Langdon last Friday and set up in the school yard, this will be occupied by Mr. Vanderburg, during his stay in Langdon.

Miss Eva Thomas was home for the week end visiting her parents.

Mr. and Mrs. Thomas were in Calgary on Monday.

Town Council

Continued from Page One

tee was appointed to look into the purchase of a trailer for the outfit.

The financial statement for the month of July was read, and showed the Town's position as quite favorable.

A report was received that no cinders were available for the projected work around town, but efforts will continue to be made to secure them. Sufficient cement has been obtained. It was stated, to do the sidewalk work in front of the King Edward.

Permission was granted the Strathmore Hotel to erect a fire-escape on Second Avenue from the second story and dropping to a height of seven feet above the sidewalk.

The Public Works committee was asked to look into the construction of a culvert on Fifth Street and entering into Risdon's Machine Shop.

The Mayor was appointed a committee to work with the Municipality on fixing up the corner on the road leading to Sorensen's. Part of the road is a town affair, and the other is a municipal roadway.

Progress on Water Picture

The committee of T. S. Hughes and

G. H. Patrick reported on their recent trip to Edmonton and their meeting with the Board of Public Utilities over the proposed installation of a water system in Strathmore. Their reception had been very favorable, they reported, and the commission was quite in favor of empowering them to borrow up to the maximum of the Town's borrowing power.

In addition, they had suggested means by which the Town could manage to increase their capacity to borrow sufficient to cover the entire installation. One idea was to survey the amount of water main passing in front of strictly Town property, and from which there was at present no chance of securing water revenue, and listing the pipeline installation in this area as a Local Improvement. This would be a separate account on which to borrow.

In addition, they suggested that the assessment be based on 100% instead of the present two thirds assessment, in order that the maximum borrowing power might also be increased by a proportional amount.

Following their meeting with the Board of Public Utilities, the committee held a meeting with the Board of Public Health, who sent a man to inspect the proposed disposal area. This was quite satisfactory, in his view, and the Health Board has also given their approval.

Next step planned by the Council is for the committee to visit the engineers, and secure a report showing the amount of pipe line which could be classed as Local Improvement. Following this, it is proposed to go ahead and canvass potential water and sewer users to see how many will sign a contract for service.

The Public Works Committee was instructed to see what could be done about repaving the sidewalks on First Street between Railway and Second Avenues.

Accounts to the amount of \$278.60 were passed.

Agric. Service Board

Continued from Page One

seeds buried too deeply to germinate before, will now grow. Therefore to properly clean your land the above plan will have to be followed for several years. The above method will give a cash return and at the same time clean your farm of weeds. This is recommended in preference to straight summerfallowing.

The board inspected several fields sown to Fall Rye and Fall Wheat. Wild Oats was not a problem in these fields. It is possible that the preparation of the land to receive the fall grains helps to control Wild Oats in addition to competition during the normal growing period in spring and fall. A further argument in favor of the fall grains is the fact the fields do not drift in the spring as would summerfallow. Again, since the fall grains are gaining in popularity, a larger acreage is anticipated. Not only will this practice give weed control but it will spread the harvest over a longer period. Many farmers in the area who had fall grains now have it in the bin or have hauled it to market, thus giving them some extra cash for their other harvest. By using fall grains a measure of control of perennial weeds is gained. The fall grains are growing in the fall, thus drawing on the plant food normally stored in the roots of the weeds for next spring's growth. Under average conditions the fall grains are harvested before such perennials as: Sow Thistle, Canada Thistle or our old enemy Hoary Cress, can produce seed. When this crop is removed the patches of perennial weeds can be cultivated until freeze up. A mold-board plow is a good implement for fall cultivation of perennials.

erals.
The Service Board is convinced that a strenuous campaign to control perennial weeds must be inaugurated. Why wait until the Field Supervisor calls and points out the work that should be done. Farming in this territory requires planning and execution.

By using a form of rotation and less bare summerfallow we will alleviate soil drifting. If we do follow such a plan, no listing of bare fallows will need to be done. A more liberal use of fall grains will reduce the acreage sown to cover crops, from which little or no returns is earned.

He can't always wait for his money...

The firm you work for may operate a large plant, with costly machinery, and still need ready cash. That's because months often pass before its products are finished, and sold, and paid for. Meanwhile, it has a payroll to meet every Friday...

BANK CREDIT BRIDGES THE FINANCIAL GAP

Every day, business firms make use of bank loans to keep men working, machines running, goods flowing. This bank credit may be used to meet continuing expenses while goods are being processed; to build up stocks of raw materials; to purchase component parts. As finished goods reach the market and payment is received, the loan is repaid.

Enterprising farmers, fishermen, merchants—all make similar use of bank credit to meet their short-term financial needs. Thus your bank helps Canadians maintain steady operations—to take advantage of market opportunities both at home and abroad—to grow. And this, in turn means more work, more goods, a higher standard of living for you and for every Canadian.

STUDENTS GET FEES BACK

IF THEY'LL BE TEACHERS

EDMONTON—Education Minister R. E. Anley today announced that registration and students union fees of persons entering the faculty of education at the University of Alberta will be remitted providing they enroll in courses leading to junior, elementary and intermediate teaching certificate.

The step he said is being taken in an effort to cope with the serious teacher shortage in the province. Period of training for the certificate is one year and it entitles the holder to give instructions in grades one to nine inclusive for a period of three years.

The Legion Under Fire

By Doug Smith

There appeared in the Montreal Standard recently an article entitled "Whither the Legion," in which the author took the Legion apart and climaxed by gently putting it together again. He patted on the back and again he applied leather to the shiny seat.

Quite naturally some have taken exception to his remarks against the Legion because it attacked in some instances Legion activities by applying scattered local circumstances without reviewing the Legion picture as a whole.

However the time has arrived in an organization as large as ours that we must take stock of our shortcomings for those we are bound to have, and sometimes a kick in the pants from outside doesn't do us any harm. We are doing a heck of a lot of good but we are not infallible.

The article pointed out that Legion branches on occasion took things into their own hands regarding matters of policy, thereby disregarding Legion policies determined by Convention. This we regret is unfortunately true and has upon occasion led to embarrassing situations.

Resolutions forwarded to individual members of the House of Commons have conflicted with presentation already made to the Committee on Veterans Affairs by Dominion Command on behalf of the Legion as a whole. Such action naturally tends to weaken the strength of the Legion's request and at times the Dominion Command receives a telephone call from a puzzled M.P. asking us if "we will please make up our minds."

CLUNY

By Mrs. B. F. G.

The regular meeting of the Cluny W. I. was held at the home of Mrs. G. Beattie with Mrs. F. Nowicki, vice-president in the chair. Roll call "My Favorite Pickle Recipe" was well responded to. A committee was appointed to look into the matter of raising money to help furnish the committee rooms in the community hall. The Bi monthly bridge parties will again be sponsored by the W. I., the first one of the season being held at Mrs. Somervilles with Mrs. Haymond assisting hostess on Thursday, September 19th.

A very tragic accident occurred in Cluny on Monday afternoon when Chas Grenier lost his life. Details are very meagre at this time, but Mr. Grenier was helping to jack up Mr. Fairbourn's boat when something went wrong and Mr. Grenier was badly crushed, death being almost instantaneous.

STANDARD

(By Mrs. R. G.)

A. R. REIFFENSTEIN

Andrew Rasmus Reiffenstein, 79, died Friday at his residence in Standard following a brief illness.

Mr. Reiffenstein was born in Vilby, Denmark. He came to the Standard district from Carna, Iowa, in 1915 and farmed extensively there until 1937 when he retired and made his home in Standard. He was a member of the Standard Lutheran church.

He is survived by his widow, Kathrina, Standard; seven daughters, Mrs. J. J. Samden, Hussar, Mrs. Nels Andersen, Lacombe, Mrs. Otto Christianson, Standard, Mrs. Rex Gregory, Chancellor, Mrs. Leo Larsen, Standard, Mrs. William Andersen, Westlock, and Mrs. Charles Madsen, Chancellor; six sons, Fred and Walter, Didsbury; Charlie and Binnie, Chancellor, Clarence, Chico, Calif., and Hans, Standard; 47 grandchildren and four great-grandchildren.

Mr. J. J. Petersen has returned from a holiday at Carolyn, north west of Innisfail where he has been visiting his son Sidney.

Mr. and Mrs. Axel Larsen are holidaying at Banff.

Mr. and Mrs. Axel Gravengaard of Portland, Oregon have been guests of Mr. and Mrs. Sigurd Rasmussen. The party visited Banff.

Mr. and Mrs. David Petersen are here from Minnesota visiting Mr. and Mrs. Sigurd Rasmussen and Mr. and Mrs. John Rasmussen.

Miss Grace Laursen left last week to attend the Camrose Lutheran College.

Mrs. M. Fortier and small daughter Carol are visiting the former's parents Mr. and Mrs. Sigurd Rasmussen. Mr. Glen Buckwald is attending the Concordia College at Edmonton.

Miss Gwenth Knowlton has left to attend Mount Royal College in Calgary.

Mr. Arne Neilsen is spending a week with his parents before leaving for Edmonton to resume his studies at the University of Alberta.

Mrs. Howard of Calgary is visiting Mr. and Mrs. E. Wagler.

The U.F.W.A. Cook Books are now ready for sale. Anyone wishing to order one can do so by getting in touch with Mrs. E. Wagler.

The community was saddened by the sudden death of Mr. Andrew Reiffenstein on Friday, September 13th, after a very short illness. The people of the community extend their deep sympathy to the bereaved family.

STRIKE ACTION BRIEF
ALBERTA FARMERS'
UNIONTOGETHER WITH
UNITED FARMERS OF CANADA
(SASKATCHEWAN SELECTION)Presented to
DOMINION CABINET IN
AUGUST, 1946

This brief is being presented by the Alberta Farmers' Union and the United Farmers of Canada (Saskatchewan Section), representing a total of 102,000 members.

This delegation has come to Ottawa with a very definite purpose. Since their inception, the farm organizations which we represent, have worked to one end, and that is to secure parity for the Agricultural portion of our population.

By Parity, we mean a division of the National Income which will ensure the farmers their fair share. According to latest available figures, Agriculture now receives about 20% of the National Income, notwithstanding the fact that one-third of the people of Canada are employed in Agriculture.

During the war, Canadian farmers submitted to intolerable conditions, to assist the National war effort, but they will no longer tolerate such disparity. The dissatisfaction engendered by this situation is seriously affecting production in the West at the present time.

We consider the announced desire of the Food and Agriculture Organization (F.A.O.) to establish a definite measure of stability in the Agriculture industry, in order that a maximum production of high quality food may at all times be available, to be of the utmost importance to us, at this time.

It is the considered opinion of the Western Canadian farmers that to maintain a high rate of efficient production it is absolutely essential that farmers be paid a price for their products that will provide an equitable standard of living.

We maintain that any price paid for farm produce which prevents efficient producers from maintaining a high operational and living standard, must ultimately result in reduced production, lower consumption, lower caloric intake and consequent malnutrition, keeping in mind the possible future need for some means of stabilization, and possibly, controlled production.

With a view to remedying the conditions outlined in this preamble, we are submitting for your consideration the following definite requests and urge immediate action on same:

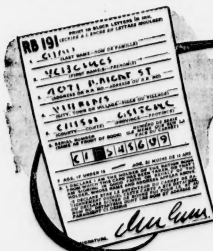

1. The immediate establishment of a permanent fact-finding board to determine Parity Prices, personnel of such board to be appointed equally by Farmers' direct membership organizations, Labor, Business, and Government.
2. Prices for all farm products to be set on a basis of Parity as soon as such basis can be established by the fact-finding board, such prices to be open to revision at any time.
3. Farm Prices until Parity is established:
 - (a) Floor price for wheat \$1.55 per bushel basis No. 1 Fort William for all wheat produced.
 - (b) Other farm products to be maintained at present levels.
 - (c) Prices of all goods which affect farm production costs to be reinstated as of September 10, 1945.
 - (d) Abolition of the present Domestic Price system on wheat whereby the Canadian public is subsidized at the expense of the wheat producer.
 - (e) Participation Certificates for each year's wheat crop to be settled separately as soon as the crop is disposed of.
4. Revision of the system of bonuses on feed grains whereby the livestock feeder who raises his own feed grain will also receive the full benefit of the bonuses.
5. Removal of the 3 cent Federal Gasoline War Measures Tax.
6. Income Tax laws to be amended to conform with brief presented by Canadian Federation of Agriculture.
7. Co-op Institutions should not be considered in the same category as joint Stock Companies and should therefore not be subject to any corporation or income tax.
8. A revision of the freight rate policy which discriminates against Western Canada.
9. The fullest possible use and expansion of the Port of Churchill.
10. Immediate abolition of the Winnipeg Grain Exchange.

Respectfully Submitted.

To those who
did not get
NEW RATION BOOKS!

It is not possible to issue new Ration books to consumers who apply in person at Local Ration Boards or at Ration Branches.

If you did not secure your new book during official "Distribution Week"—then mail your application card to any Local Ration Board or Ration Branch in your vicinity.

Your application is to be made on the green card, marked RB. 191, at the back of your present book No. 5.

Be sure that the card is filled in completely before mailing, and that your name and address are printed.

DELAYED APPLICATIONS will have to be cleared through the main office of the Ration Administration—and your new book will be mailed you as soon as possible.

THE WARTIME PRICES AND TRADE BOARD

Local News Items

Mr. and Mrs. Keith Baldwin and daughter Enid returned recently from a very happy visit to their former home in Nipawin, Saskatchewan, where they called on a number of old time friends.

Walter Boissevain left Sunday for Edmonton where he will take second years work in the University.

Congratulations to Miss Enid Baldwin, whose pony Flicka made such a good showing in the Horse Show in Calgary Saturday. Enid's pony won Second in a pony race in a group of 26. Fourth in a jumping class of 29 and fifth in the Show class of 38.

H. & S. Refreshment Booth
Saturday last a group of Home and School members under the capable chairmanship of Mrs. Alice Crellin dispensed refreshments to the eager passers-by, from a booth erected on the vacant lot next to Dr. Giffen's office. Purpose of the function was to provide funds for the Scholarships given by the Strathmore H. & S. Association to the winner of the highest standing in Grade IX for the year 1947, and also four Scholarships of \$12.50 each to the pupil obtaining highest standing in the other four subdivisions of the Wheatland area. The committee worked zealously until the closing hour, clearing approximately \$35.00 by their efforts. Mrs. Crellin and her assistants are to be warmly thanked for their efforts in this worthy cause.

Mr. Sauder and his daughter enjoyed a few days in Lethbridge during the week.

Stanley Cockx left Sunday for Ouelb, Ontario, where he will enter the Agriculture College, and take a course leading to the V.S. Degree. The course is for four years.

The Namaka Ladies Aid were hostesses Thursday afternoon last in the Memorial Room in United Church, Strathmore to the Women's Auxiliary of Strathmore.

A large number from both groups was in attendance. Miss West gave a lengthy and most interesting talk on the position of women in India. She expressed their primitive conditions in grinding wheat and rice, and stated that most of the manual labor is performed by the women. Miss West said when the people understand they appreciate progress, but there as a long hard hill to mount. Following the address Mrs. Waldum sang a solo after which an abundance of choice refreshments were served by the Namaka Ladies, and all enjoyed a very pleasant social hour. A vote of appreciation was extended the visitors, coupling with this the hope that similar gatherings could be arranged fairly frequently as the getting together was interesting and helpful for both groups. Mrs. L. F. Wheeler and Mrs. North Presidents of the Namaka and Strathmore group respectively, jointly conducted the meeting. The Miraph Benediction concluded a very happy afternoon.

Miss La Zelle Sauder is enjoying a short holiday at home prior to leaving Saturday next for Edmonton where she will enroll in the University in the Home Economics Class I.

Mrs. Folk returned Saturday from a very happy week's visit with her son Dee and his wife at Vermilion, Alta.

Mr. and Mrs. Patrick motored to Hanna last Friday, going on from there on an exploratory trip through Cessford and the Badlands around Drumheller. For a picture of utter desolation Mrs. Patrick states nothing can exceed the territory around Cessford.

Frank Van Tighem leaves next Monday for Edmonton where he will again enroll in the University taking a course in Arts and Science.

Mrs. Jas Martin returned Saturday last from an extended visit to her former home in New Brunswick, visiting friends also in P.E.I. This is the first time Mrs. Martin has been east in many years.

We are pleased to state that Mrs. Jones of Strathmore Motors is improving steadily in health and will be home again soon.

Do not forget the Community Centre meeting, Monday September 23rd.

Jerome Hansen has fully recovered from his recent attack of blood-poisoning and will leave Monday next to resume his studies in the U. of A.

Mrs. Love returned Monday to her home in Calgary after having spent the week with her daughter Miss Love.

Mr. Homer Nelson is now located at Colpitt's Ranches, a short distance west of Calgary, where he has secured employment.

Mrs. Peter Siemens and Alvin and Billy spent last weekend in Calgary visiting.

Mr. and Mrs. Don Poole of Kelowna were week end guests at the home of Mrs. Van Tighem.

Miss Gladys Hutchings attended a Convention of Public Health Nurses held in Banff Monday and Tuesday of this week.

Miss Iris MacLeod, daughter of Mr. and Mrs. Munroe MacLeod will leave Monday next for Edmonton to enter her first year in University. Iris will take the Arts Course.

Mr. Andy Mellisen, of Vancouver, has been visiting in town for almost a week, at the home of Mr. and Mrs. A. V. McParland. Andy was well known here some six years ago and this is his first trip back to Strathmore.

Joyce Wicks is able to get around on crutches following a recent minor accident.

Rev. and Mrs. Hamilton were Lethbridge visitors Tuesday attending the wedding of an intimate friend.

Mrs. C. W. Chase is confined to bed for a few days suffering from a severe attack of flu. We hope for a turn for the better soon.

A very pleasant meeting of the W.M.S. was held Tuesday at the home of Mrs. S. Coldwell. Unfortunately the number able to attend was not large, nevertheless those present enjoyed a very interesting afternoon. Miss West ably reviewed the Study Book for the year. A social hour followed when Mrs. Coldwell served delicious refreshments.

Born to Mr. and Mrs. A. McLaughlin, Wednesday, September 18, a daughter.

Born to Mr. and Mrs. John Keeling, September 17, a baby boy.

Born to Mr. and Mrs. Lloyd Little on Wednesday night, a daughter. Mother and daughter are both doing well.

INQUEST INTO DEATH OF KENNY MACKENZIE

An inquest into the circumstances surrounding the death of Kenny Mackenzie was held in the Town Hall on Wednesday afternoon, by Coroner Dr. Johnson, of Calgary.

Evidence was received from seven witnesses, and received by the Coroner and Jury, consisting of Messrs. T. S. Hughes, L. A. Roberts, J. D. Brown, T. E. Wright, Wm. Woodliffe and Keith Baldwin.

A verdict was returned indicating that death occurred as a result of bleeding from injuries to the spleen and stomach, caused as a result of being crushed accidentally by a truck driven by Wm. A. Harwood.

The Rockville school formerly located 20 miles north east of Standard has been brought in to Strathmore and placed west of Crellin's cottage in such a manner as to not interfere with the base-ball diamond, the windows facing west. It is a one room school of excellent construction, and is in excellent shape. This school will relieve the over-crowding in Grades 1-4 inclusive. It is hoped to have it in readiness for next week's use.

Born to Mr. and Mrs. Thielman of Namaka on Thursday morning, in Calgary, a daughter.

HOME AND SCHOOL

At the meeting of the Home and School Association to be held Monday, September 30, Rev. S. J. Parsons, B.A., B.D. of Scarboro United Church, Calgary will give an address. Rev. Parsons is reputed as a very able speaker and it is hoped a large number will avail themselves of hearing his address. It is expected the meeting will be held in the Dining room of the Memorial Hall.
